

## DATA SHEET

---

# Protect your Mailbox

Did you know that 89 % of all your emails contain malware which may cause severe damage to the end-points and network, but may also expose confidential company data? This can be prevented by insulating your web gateway and monitoring data. K7's Mail Security does this and much more. Email-borne threats should be eliminated to achieve clean business communication. K7's layered security prevents and eliminates potential threats. Protect your business data now.

## K7 Mail Security

### *Comprehensive Email Server Protection*

---

- ✚ The complete protection for your email server.
